If below 60% funded, what actions have been taken to reduce the systems UAL?

The City closed it's defined benefit plan to new hires after January 1, 2011. The plan was replaced with a retiree health care savings plan that will be fully funded during active employment through employer and employee contributions.

The City changed it's insurance coverage for post 65 retirees to a Medicare Advantage plan. The change resulted in reduced premium costs for the City.
